Scanner sop

Producer： bojay software team

As first time,maybe you should scan "Host" code(I tried it is ok!)

Level
(0)

*Presentation Mode
(7)

Host
(8)

# Install environments

(1)configure environments.

1.install python package pythonnet

2.install Zebra_123Scan_(64bit)_v5.01.0004.exe

(2)run the 123Scan application,then we can find below windows usb devices.

Scanner API usage

please refer the attach ScannerAPI.pdf

Scanner API.pdf

Thank you
